JLA 1.2 Dryer Ironer

JLA 1.2

THE PROFESSIONALS CHOICE

SPECIFICATION

Details	Units	JLA 1.2
Roller Ø	mm	220
Roller Length (working width)	mm	1210
Capacity (water evaporation)	Ltr/hr	10
Speed	mtr/min	1 - 3
Weight - net	Kg	245
Dimensions (HxWxD)	mm	1088 x 1709 x 765
Exhaust Outlet Ø	mm	90
Voltage	v/ph/amps	415/3/16, 240/1/40
Electric Heat	kW	8

Capacity figures are calculated at no more than 55% residual moisture and are to be used as a guide only.

JLA 1.2 Dryer Ironer

An ironer designed for professionals who require the best finish, high performance and reliability, with a roller width of 1210mm with a 220mm diameter roller. This ironer is simple to use and is ideal for processing flatwork for small to medium applications. Best performance is achieved by conditioning the fabric in a tumble dryer to approx. 55% residual moisture; the work is then finished in a single pass through the ironer. An accurate temperature control enables a wide range of fabrics to be perfectly finished, while the full-length pedal and return feed facility eases operation. Every aspect of the design has been carefully considered for optimum reliability.

Features

Feeding belts
 Nomex ironing belts
 Increased surface contact
 Kinematic strap tensioning
 Both cylinder & drum rotate
 Chromed steel roller
 Adjustable temperature
 Variable roller speed
 Return feed
 Vapour exhaust
 Finger guard protection
 Robust construction
 4 speed roller

Benefits

Simplify operation and ease positioning of the fabric, a pressure roller forces the work onto the ironing roller and eliminates creasing
 Extended life, withstand temperatures above 200°C, no scorching
 20% more of drum surface in contact with belts - increased ironing quality
 Self-tensioning belts - if belts should become stretched, correct tension is maintained
 Creates 'slip' which tensions whilst ironing to improve finish
 Corrosion resistant ensuring long life, mirror polished machined steel with chrome finish
 Thermostat control from ambient to 160°C - allows for a wide variety of fabrics to be finished
 Enables a wide variety of fabrics to be processed to a high quality, optimising throughput
 Single operator, allows positioning close to a wall and eases operation, the work falls neatly into a receiving tray
 Improves working environment, eliminates condensation
 Full-length finger guard ensuring operator safety
 Epoxy coated frame with durable finish
 Allows you to select the optimum ironing speed to suit the type of material
